LOGICLIBRARY FORMS STRATEGIC ALLIANCE WITH LEADING ISRAELI IT PROVIDER SRL GROUP

*Partnership is the Latest Step in International Expansion of Foremost
SOA Governance Leaders*

PITTSBURGH—June 26, 2006—LogicLibrary®, the leader in design-time service-oriented architecture (SOA) governance and software reuse, today announced a strategic partnership with SRL Group, a leading software reseller and system integrator with headquarters in Tel Aviv, Israel. Demand for LogicLibrary's industry-leading, design-time SOA Governance solution continues to build momentum. This alliance with SRL is the sixth significant European deal in recent months.

SRL, founded in 1982, provides custom-made information technology solutions and is recognized as one of the foremost consultancies in Israel. International clients and partners such as Microsoft and Sybase utilize SRL services for application development and database projects in Israel and Europe. SRL recently launched an SOA Practice to address the fast-growing use of Services from its current and potential customers. Headquartered in Tel Aviv, SRL Group also has an office in London.

"SRL works closely with leading partners like LogicLibrary to deliver high quality services and solutions for our clients," said Ari Rosenbaum, vice president of products and technologies at SRL. "Logidex is the premier governance and reuse solution on the market today. The fact that Logidex works seamlessly with IBM Rational tools and Microsoft's Team System Foundation, both of which are used extensively in Israel and throughout Europe, is very important for SRL clients. SRL and LogicLibrary share a commitment to helping customers use technology to support business objectives."

Logidex is a design-time repository/registry with configurable governance policies that make it possible for organizations to actively track and manage services from design through deployment. Logidex's unique combination of a repository for services production, a registry for services and artifact consumption and automated UDDI and ESB publication options provides governance capabilities for the entire SOA lifecycle.

"Demand for LogicLibrary's industry-leading solutions continues to build in international markets," said Don Imhoff, vice president of business development and channels at LogicLibrary. "Our strategic partnership with SRL will help customers to modernize

their existing applications, as well as implement the necessary design-time governance processes for emerging SOA initiatives.”

About LogicLibrary

LogicLibrary is the leading provider of software and services that make it possible for enterprises to manage and reuse SDAs. The company’s patent-pending technology provides a comprehensive and collaborative approach for creating, migrating and integrating enterprise applications for use in service-oriented architecture, Web services and other software development initiatives.

LogicLibrary has been positioned in the “Leader” quadrant in Gartner Inc.’s 2H05 to 1H06 Magic Quadrant for Metadata Repositories* and maintains strategic partnerships with Microsoft, as a Premier member of the Visual Studio Industry Partner (VSIP) program, IBM, as an Advanced PartnerWorld Partner, and Serena. LogicLibrary has been recognized for three consecutive years on the *SD Times* 100 list of leaders and innovators in the software development industry and has integration partnerships that include Microsoft, IBM, Eclipse, BEA and Borland. LogicLibrary is headquartered in Pittsburgh, with an additional office in Rochester, MN. For more information, visit <http://www.logiclibrary.com>.
