LOGICLIBRARY LISTED IN LEADER QUADRANT IN 2004 MAGIC QUADRANT

*Evaluation of Metadata Repository Tools Positions Companies Based on
Vision and Ability to Execute*

PITTSBURGH—March 8, 2004—LogicLibrary™, the leading provider of software asset management tools, today announced that it has been positioned in the “Leader” quadrant in Gartner Inc.’s Magic Quadrant for Metadata Repositories, 2004. *

Rating software tools “on their ability to satisfy the broadest and deepest requirements,” the Gartner Magic Quadrant positions companies based on their vision and ability to execute that vision. According to Gartner, Inc., leaders are defined as those vendors that are performing well today, have a clear vision of market direction and are actively building competencies to sustain their leadership position in the market.

Logidex is the industry’s premier collaborative software development asset (SDA) management solution for development, integration and service-oriented architecture projects. Logidex is also the only software asset management product that features tight integration with Eclipse, IBM WebSphere Studio, IBM Rational XDE and Microsoft Visual Studio .NET.

“We consider Gartner’s recognition of LogicLibrary as a market leader to be further evidence of the tremendous strides we’re making,” said Greg Coticchia, CEO of LogicLibrary. “By creating a superior product and forming alliances with the leading software companies in the world, such as Microsoft and IBM, LogicLibrary is firmly positioned as the ‘go-to’ company for enterprises interested in maximizing their software investments and embarking on service-oriented projects.”

The Magic Quadrant for Metadata Repositories, 2004 authored by Michael Blechar, states: “As the need to understand and reuse metadata in support of new service-oriented architectures such as J2EE and .NET has increased and the demand for metadata understanding in areas of enterprise architecture, outsourcing, and application integration has grown, the relevance and value of metadata repositories has fueled new sales. We expect this trend to continue through the decade.”

Logidex

Logidex is a collaborative software development asset (SDA) management solution that simplifies the creation, migration and integration of enterprise applications. It represents inherently complex, enterprise application environments in a graphical, intuitive way. Logidex is the only SDA

management solution that offers model-based searching, out-of-the-box assets, measurements and metrics.

About LogicLibrary

LogicLibrary is a leading provider of software and services that make it possible for enterprises to manage and reuse software development assets (SDAs). The company's patent-pending technology and methodology provide enterprises with a comprehensive and collaborative approach for creating, migrating and integrating enterprise applications. LogicLibrary has been named to the *SD Times* 100 list of leaders and innovators in the software development industry and is a Premier member of Microsoft's Visual Studio Industry Partner (VSIP) program, as well as an IBM Advanced PartnerWorld Partner and a Sun Microsystems Partner. Integration partners include Microsoft, Borland/TogetherSoft and IBM/Rational. For more information, visit www.logiclibrary.com.

About the Gartner Magic Quadrant

The Magic Quadrant is copyrighted March 2004 by Gartner, Inc. and is reused with permission. The Magic Quadrant is a graphical representation of a marketplace at and for a specific time period. It depicts Gartner's analysis of how certain vendors measure against criteria for that marketplace, as defined by Gartner. Gartner does not endorse any vendor, product or service depicted in the Magic Quadrant, and does not advise technology users to select only those vendors placed in the "Leaders" quadrant. The Magic Quadrant is intended solely as a research tool, and is not meant to be a specific guide to action. Gartner disclaims all warranties, express or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.
