LOGICLIBRARY EXPANDS MANAGEMENT TEAM TO MEET DEMAND FOR SOFTWARE REUSE AND APPLICATION SECURITY TECHNOLOGY

Ralph Massaro Joins Leading Software Development Asset Management Company as Vice President and General Manager of Content Products

PITTSBURGH—April 5, 2005—LogicLibrary®, the leading provider of software development asset management tools, today announced the appointment of Ralph Massaro as vice president and general manager of content products. In this position, Massaro is responsible for sales, marketing and business development for LogicLibrary's content products. He will initially oversee the integration of BugScan, LogicLibrary's automated security analysis tool, with LogicLibrary's flagship product Logidex, and be responsible for bringing the solution to market.

"We strive to provide developers with the most comprehensive tools available for their development projects. Whether building Web services or service-oriented architectures (SOAs), or validating the security of applications, our tools have become a 'must-have' for developers inside leading organizations such as IBM, MetLife and Verizon," said Greg Coticchia, president and CEO of LogicLibrary. "Ralph brings extensive experiences in general management, sales and marketing to the position, and we are excited to have him on board as we continue to grow and meet the demand for our solutions."

Massaro brings over 20 years of related experience to the management team. Prior to joining LogicLibrary, he was executive vice president of sales and marketing at Solvaire Technologies, a document management and contract management start-up. Previously he was vice president of asset management sales for Intraware and worldwide vice president of sales for Janus Technologies, where he led the sales efforts for Argis, the company's IT Asset Management product. Massaro was also general manager and vice president of worldwide sales for Passgo, a software security firm headquartered in the United Kingdom. Prior to joining Passgo, Massaro held a number of sales-related positions at Legent, now a part of Computer Associates, from sales representative to northeast area director of sales.

Logidex is the industry's premier solution for managing, reusing and governing software development assets (SDAs) in development and SOA projects. It features tight integration with all major development environments, including Eclipse, IBM Rational Application Developer, Rational Software Modeler and Rational Software Architect, Microsoft Visual Studio .NET and SAP NetWeaver Studio. Additionally, LogicLibrary's BugScan provides powerful, easy-to-use code-scanning technology that helps architects, developers and IT professionals ensure the highest levels of security throughout the software development lifecycle.

About LogicLibrary

LogicLibrary is a leading provider of software and services that make it possible for enterprises to manage and reuse software development assets (SDAs). The company's patent-pending technology provides a comprehensive and collaborative approach for creating, migrating and integrating enterprise applications for use in service-oriented architecture, Web services and other software development initiatives. Additionally, LogicLibrary's BugScan provides powerful, easy-to-use code-scanning technology that helps architects, developers and IT professionals ensure the highest levels of security throughout the software development lifecycle.

LogicLibrary has been positioned in the "Leader" quadrant in Gartner, Inc.'s Magic Quadrant for Metadata Repositories, 2004¹ and maintains strategic partnerships with Microsoft, as a Premier member of the Visual Studio Industry Partner (VSIP) program, IBM, as an Advanced PartnerWorld Partner, and Serena. LogicLibrary has been recognized the past two years on the *SD Times* 100 list of leaders and innovators in the software development industry and has integration partnerships that include Microsoft, IBM/Rational, Eclipse and Borland. LogicLibrary is headquartered in Pittsburgh, with additional offices in Rochester, MN and Sunnyvale, CA. For more information, visit <http://www.logiclibrary.com>.
