LOGICLIBRARY SELECTED BY NORWAY'S LARGEST LIFE INSURANCE COMPANY TO MANAGE AND REUSE KEY SOFTWARE SERVICES

Design-time Governance Leader Continues Brisk European Expansion with Agreement to Support Vital Forsikring ASA's New Customer-Oriented SOA

PITTSBURGH—May 9, 2006—LogicLibrary®, the leader in design-time service-oriented architecture (SOA) governance and software reuse, today announced that Vital Forsikring ASA, Norway's largest life and pensions insurance company, has selected Logidex™ to manage services as they are created and re-used in its SOA projects. This represents the fifth significant European deal in recent months as demand for LogicLibrary's industry-leading, design-time SOA Governance solution continues to build in international markets.

Vital Forsikring ASA, a subsidiary of DnB NOR, offers insurance and savings products to companies, public enterprises, local authorities, associations and individual clients. Vital provides life and pension insurance products to almost 700,000 individual customers and covers the insurance requirements of almost 7,000 corporate clients. LogicLibrary will help Vital as it provides new products and services for its individual and corporate customers.

“After a thorough examination, it was clear that LogicLibrary is visibly the best option for Vital,” said Rolf Nergaard, IT architect for Vital Forsikring ASA. “Logidex's tight integration with IBM Rational Software Architect, Eclipse and Microsoft Team Foundation gives the Vital team exceptional flexibility. Additionally, LogicLibrary offers unrivaled search capabilities and the ability to work seamlessly with tools such as AmberPoint's SOA Management System.”

Logidex is a design-time integrated registry/repository with configurable governance policies that help make it possible for organizations such as Vital to actively track and manage services from design through deployment. Logidex's unique combination of a repository for services production, a registry for services and artifact consumption, and automated UDDI and ESB publication options is designed to provide governance capabilities for the entire SOA lifecycle.

“LogicLibrary is experiencing exciting growth in Europe as leading companies like Vital embark on SOA initiatives and recognize the value that Logidex delivers,” said Don

Imhoff, vice president of business development and channels at LogicLibrary, Inc. “Logidex is the only solution that offers a complete design-time SOA governance platform for effective management and reuse of software assets. This will enable Vital to build and operate SOAs that deliver maximum return for the company and its customers.”

About Vital Forsikring ASA

Vital Forsikring serves the life and pension insurance needs of more than 7,000 corporate clients and 700,000 individual customers. In 2005, the Company had annual revenue of NOK 22 billion (USD 3.6 billion) and total assets of NOK 202 billion (USD 33 billion). Vital is a subsidiary of DnB NOR, whose total assets of more than NOK 1,400 billion (USD 228 billion) make it Norway's largest financial services group. The Group has more than 2.1 million retail customers, 38 percent of lending to the retail market, more than 900,000 insurance customers, handles the payment flow for more than half of Norway's foreign trade, acts as the principal bankers for 60 percent of Norway's 300 largest customers, and also owns Norway's largest asset management operations.

About LogicLibrary

LogicLibrary is the leading provider of software and services that make it possible for enterprises to manage and reuse SDAs. The company's patent-pending technology provides a comprehensive and collaborative approach for creating, migrating and integrating enterprise applications for use in service-oriented architecture, Web services and other software development initiatives.

LogicLibrary has been positioned in the “Leader” quadrant in Gartner Inc.'s 2H05 to 1H06 Magic Quadrant for Metadata Repositories* and maintains strategic partnerships with Microsoft, as a Premier member of the Visual Studio Industry Partner (VSIP) program, IBM, as an Advanced PartnerWorld Partner, and Serena.
